

Pacific Seabird Group 43rd Annual Meeting
PSG Student - Mentor Social
12 February 2016
6:30 PM in Oahu Room

Do you have questions about career opportunities in marine ornithology or the range of options available to you regarding seabirds and seabird conservation? The PSG Student Representative will host the 9th Annual Student-Mentor Social on Friday 12 February 2016.

This social event is an opportunity for students to meet and learn from PSG's members representing academia, government, NGOs, and private consulting and discuss with them careers in teaching, research, management, and policy. This event is open to all students and mentors, and we encourage participation from all career stages and professions as mentors (e.g., early career scientists, mid or late career professionals).

Food will be provided and lively discussion is guaranteed. For planning purposes, if you are interested in participating, please fill out this [form](#). RSVP'ing isn't strictly mandatory so please consider showing up for half an hour, or the whole night.

Please see the PSG Annual Meeting program and Registration Desk for time and room number.
