

Early Career Scientist (ECS) Event

44th PSG Annual Meeting

Date: Friday 24 Feb 2017

Time: 1700-1830

Location: Meeting Room 315, Tacoma Convention Center

Please join us on for PSG's first 'Early Career Scientist' panel session. **Content for the session is based on early career scientist's submissions to the session's question jar at the registration table.** A set of eight panelists have the chance to weigh in on these questions, with PSG Chair Nina Karnovsky as session moderator.

If you are an early career scientist - graduate student (MSc or PhD), field or lab technician, postdoctoral researcher, and early-career tenure track faculty- submit your question(s)!

We welcome all attendees to hear the questions and panelist responses. Come show your support for the next generation of seabird biologists!

2017 Early Career Scientist Panelists

- Jessica Behnke (Planning Solutions, Inc.)
- Jennifer Boyce (National Oceanic and Atmospheric Administration)
