Re: Removal of Predators from Alaskan Seabird Colonies

Dear Mr. Stieglitz:

Enclosed is a letter that the Pacific Seabird Group (PSG) sent last year regarding the preparation of a plan that outlines a comprehensive approach to removing all exotic predators from seabird islands in Alaska. This letter has not been answered. We hope that the Service might propose such a plan in the near future so that the Trustees could be in a position to act favorably on this matter. Please let us know whether the Service is developing a plan that outlines a comprehensive approach to removing all exotic predators from seabird islands in Alaska. PSG is considering soliciting funds to develop a plan, and we do not wish to duplicate FWS' efforts if any are under way.

We would hope that FWS might work with PSG to develop a plan if we secure funding to do so.

Sincerely,

A handwritten signature in cursive script that reads "Craig S. Harrison".

Craig S. Harrison
